

SIUE School of Pharmacy Needs Your Help!

Are you outgoing and like to help others?

***Are you interested in participating in
valuable learning experiences for student pharmacists?***

The SIUE School of Pharmacy is currently recruiting volunteers to serve as standardized patients for performance based assessment examinations.

Standardized patients are people within the community who are coached to simulate an actual patient scenario. For example, a standardized patient may portray a patient with a bad headache and a student pharmacist interviews the patient and recommends a medication.

Who can be a standardized patient?

Anyone in the community 18 years-old or older is eligible to participate. This is a great activity for stay at home parents, retirees, part-time employees, and those needing some excitement on their day off!

How do I sign up?

Please contact
Dana Dain with the
SIUE School of
Pharmacy at
618-650-5156 or
ddain@siue.edu

When can I start?

We will need assistance on an as needed basis year round. The first training session will occur in the fall and our first event is October 2011.

Where can I get more information about the SIUE School of Pharmacy?

For general information on the School of Pharmacy you can visit our website at www.siue.edu/pharmacy
